Allowable Subject Matter

1. Claims 1-40 are allowed.
2. The following is an examiner's statement of reasons for allowance: Applicant has amended the instant claims so that the claims require that the first layer material consists of Ge, O, H, and optionally X (at least one of Si, N, and F). The prior art of record teaches a similar material wherein the layer comprises a material that requires that carbon be present (RCHX, wherein R is a carbon-containing group). In light of the amendment, the rejection of record has been dropped. An updated search of the prior art has not produced any additional references that read upon the instant claims, therefore the instant claims are now allowable over the prior art of record .

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Amanda C. Walke whose telephone number is 571-272-1337. The examiner can normally be reached on M-R 5:30-4.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Cynthia Kelly can be reached on 571-272-1526. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
